

K-LOVE is a great service to our community, to replace it with anything else would be awful to all. K-LOVE is a station my whole family can listen to and enjoy without having to worry about inappropriate content in either the music or advertising. We have no other station that provides this kind of service in this area. Families and singles need the kind of service K-LOVE provides to our communities. It is the best feeling in the world to have your 4 year old son sing you a song praising God.
